## QURAN Sharif Shakir Qasami With Urdu Translation

Category:Qawwali Category:National symbols of Pakistan Category:Pakistani culture Category:Pakistani art Category:Pakistani culture by type Category:Pakistani culture stubs Category:Pakistani art Category:Pakistani literatureLinks The Headless Horseman in Beverly Hills Ever wonder what it would look like if you caught a ghost? When you watch the new FOX-TV series "The Secret Circle," you might get a glimpse of what it would look like. We were on the set of this series, where the characters are trying to find out who is behind killings on a local college campus. That's when we saw the dead body of a man hanging in a barn. It's clear he is a servant of the ancient demon known as the Horseman of Death. This creature is the embodiment of the Grim Reaper and was originally a Roman God who roams the Earth as a skeletal grim reaper. In more recent legend he became associated with the otherworldly creatures known as vampires. That's all about to change. The show's unique supernatural elements come courtesy of the Pagan-Polytheistic elements of The Secret Circle. It's based on an ancient myth that centers around a mysterious witch who's about to reincarnate. Using her magic and the powers of her coven, she makes a pact with these lesser creatures called demons so they will protect her. Now the demons are free to roam the land on Earth. Unfortunately for those who worship the sun, they are a destructive force in a world filled with vampires. So when one is caught the dead bodies hang in the barn. Along with a headless horseman. There are some interesting parallels to the show's premise with the movie, "Exorcism of Emily Rose." The main female character is a young girl who's possessed by a demon. In the movie she's a sheltered religious girl who struggles to make it as a dancer. That makes sense in light of the series' supernatural themes. Like the "Secret Circle," "Exorcism of Emily Rose" was originally a movie and became a television series. Ironically, both were released in September of 2006. The plot of the show involves a group of teens who are possessed by demons. They become targets for retaliation when they use their magic powers. In the end they are forced to take their own lives so they can be exorcised of the evil spirits. But many Americans are not
